VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

Milwaukee Daily Sentinel.

TUESDAY MORNING, MAY 11, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore
PROPRIETORS.
UNDER THE NAME AND FIRM OF
RUFUS KING & CO.

FROM OUR N. YORK CORRESPONDENT.

NEW YORK, Monday, May 3, 1852.

Happily, to-day, we have a bright sun and balmy air, after one of the most dreary and tedious winters and wintry springs I remember. Saturday was the stated *moving day* in our city—dull, chilling and drizzly—adding exceedingly to the sense of uncomfortableness that belongs—even under the most favorable conditions—to breaking up an accustomed residence—changing a home—unhousing one's household gods. It was sad, even for an uninterested spectator—to see the few worldly goods of many a family in humble circumstances, draggled with rain and mud—tossed *into* carts, and then *from* carts, and lugged along, a burden too heavy often for the feeble arms which alone were employed to receive them, on muddy pavements, and scarcely less muddy entries, with the certainty that at night the weary frame must lie down, for want of other, on their damp and soiled furniture. I look upon this annual moving as one of the destructive features of our city, resulting in some degree, doubtless, that rents seem almost annually to rise; but more from the *nomadic* character, if so I may term it, of much of our population. *This* is not, to vast numbers dwelling among us, a permanent residence, but rather a camp—or grand *caravanserai*, where all the nations of the earth have their representatives and occasional guests, and of which the guests are forever shifting. To one familiar from earlier days with the city and its inhabitants, this characteristic is very evident and striking; and as such a one recurs in memory to the names and the scenes of a quarter of a century back, he becomes aware how little of the old remains, either in name or habits—while he is convinced of the great expansion in wealth, as well as in population, incident to these changes.

And still we go on; every easterly breeze now brings in vessels from Europe, freighted with living cargoes. Yesterday—Sunday—some 8 or 10 vessels from England, Ireland, the Netherlands, and Germany, reached this port, each with its quota of from 300 to 500 passengers—and all find some sort of reception, shelter, and food—without any shock to the daily assured march of things in our city. The markets, for instance, called upon every two or three days, for the supply of some thousands of extra mouths, fail not—albeit, the prices are becoming ominous; and, houses of reception, which before seemed crammed to their uttermost, yet have still some accommodation left. It is true—especially now that the river and canal navigation is open—that thousands seek daily to penetrate the interior, in search of an inland agricultural home; yet this immense movement of immense human masses, is a grand, and withal, a solemn spectacle—not witnessed on earth before—and the issue and influences of which, as well on Europe as on America, are not yet seen or appreciated.

To-day, too, we have a new ingredient—for, by the *Crescent City*, arrived last evening from Chagres, we have the first immigration, *via* California, of Chinese. In a recent letter, I believe, I spoke of the possibility that the emigration of industrious, patient, and economical laborers from the Celestial Empire—now that the wall which shut them in from the world, and the world out from them, is broken down—might be the appointed means, under Heaven, of putting an end to Slavery in our country, and on the Spanish West India Islands. These people are inured to toil in the unhealthiest of all extremes, that of rice; their habits are very simple—they are sober and docile, and might readily and profitably, as free laborers, take the place of slaves, on rice, cotton, and sugar plantations in our country, as they already, on a small scale, are doing in Cuba. Those arrived from California, have, I presume, been laboring there, in the towns and at the mines, and as the vanguard of a future emigration, must be looked upon with interest. It is certainly a remarkable fact, and all in keeping with our remarkable history, which thus far seems to signalize us as a God-favored people, for whom great destinies are reserved, and upon whom, consequently, duties great in proportion rest—that upon our soil meets the Emigration from the East and from the West—and that Asia—which in the beginning of time poured forth its population westward, until they have almost made the circuit of the Globe, and look from no distant shores up on the seat of their far-off progenitors—is now throwing off population eastward, and that the two currents come together within these United States. The history of empire is the history of the providence of God, who "shapes our ends, rough-hew them how we will." It is not given to us to read the secret of these grand movements of our race, but we may be well assured that they are not accidental nor without design, and therefore are the more bound to examine well into their nature and tendencies, and thus be the better prepared to fulfill our part of the great design, whatever it may be.

We have later news to-day, both from England and California—unimportant in the main, except that the gold comes in—*three millions* by the *Crescent City*. It is in good time, for exchange on England has jumped up again suddenly, beyond specie limits, and the *Arctic*, on Saturday, sailed with her 3 or 400,000 dollars. Money, however, is abundant. By the steamer of the middle of the month, from Europe, we shall hear, I suppose, that the review in the Champ de Mars, of the 10th, has given the *title* of Emperor—the *power* he has already—to the second Napoleon. It is pitiable, after so much suffering, struggle and blood, for Liberty—to see France quietly subsiding into the worst form of vulgar and brutal despotism.

THE STATE LOAN.—The Madison *Democrat* seems to be quite put out at our venturing to dispute its angry and random assertions about the State Loan, and favors us, in reply, with the following compliment:—

The fact is, that in treating of this matter, the *Sentinel* has descended to the most miserable prevarication and lying, merely for the purpose of keeping up appearances, and not from any respect for the Governor or belief that his conduct could be justified.

That is to say, the *Sentinel* having fully and fairly refuted the *Democrat's* false charges against the Governor, that honest print, for lack of other answer, betakes itself to Billingsgate, in which fit and congenial occupation we are quite content to leave it.

☞ We are always ready to notice all important improvements in Milwaukee, and willing to acknowledge it the first city in the State, but not only one, and we trust hereafter to find the *Sentinel* willing to meet its friends and neighbors half way.—*Sheboygan Mercury.*

Our friends of the *Mercury* suffer themselves to be unnecessarily provoked, and unjust towards us, in using the above language, which terminates the article to which we have elsewhere referred. If there is any one thing which the *Sentinel* is careful to do, it is to furnish its readers with all the information which can be gathered from the local press, from correspondents and individuals, as to the growth and prospects of our Wisconsin towns. The *Mercury* knows this well enough.

In continuation of this policy of ours, and not as a new thing, we copy in another column, the material portion of an article from the *Mercury*, concerning what Sheboygan has done, and is doing.

EMIGRATION AGENT.—The appointment of Mr. Van Steinwijk, as Emigration Agent for this State in the of City New York, is generally acceptable. He is a Hollander by birth; a gentleman of pleasing address, good education, and strict integrity, and converses fluently in the Dutch, German and English languages. He will leave here for his post in a day or two.

FREE SOIL NATIONAL CONVENTION.—The Chicago *Tribune* has reliable advices that the National Committee of the Free Soil, or Free Democratic Party, have decided to call a National Convention at Cleveland on Wednesday the 4th of August next.

Thomas H. Benton for Protection.

Col. Benton's late communing with the people seems to have given him new light and new courage with reference to matters of public policy. In his late speech at Hillsboro, Mo.—which said speech is a manifesto of his opinions on all subjects whatsoever—the Col. says that he voted for the tariff of '46, "only to get rid of the act of 1842, and with a view to substitute, or rather restore, specific duties, in the cases in which they were applicable and preferable, viewing the universal ad valorem system of 1846, as he did the same principle when enacted in the "compromise" act of 1833, as a preposterous novelty, condemned by reason and experience; and, like it doomed to a short life. One died an abortion, in a period of nine years' gestation, for it was never born into life; the other *has established its title to an immediate death*, upon a fair trial of six years experience.

Still further, with reference to protection to home industry and *ad valorems*, Col. Benton goes on to say:—

I am not to be deterred or misled by a phrase perverted and misapplied, and made the watch word of party. It is my prerogative to despise such perversion. *I know that protection to domestic manufactures*, incidental to the levy of custom house revenue, *was the doctrine of our fathers*, so declared in the caption to the first import act that was ever passed—the act of 1789; and continued until it was abused. It was the abuse, and not the fair exercise of incidental protection, that made the phrase odious," abused as it was from 1836 to 1842. But that abuse is now over, not to be revived, and a contrary extreme has been touched. Universal *ad valorems* have been substituted for appropriate specific duties. Great injury has resulted to the revenue, and to some branches of home manufacture—the iron for example—by this substitution; and it is time to stop it—stop it by returning to the wisdom of our ancestors, specifics, (which are fixed and certain) the rule: ad valorems, (which are subject to fluctuation, to invoice frauds, and to appriser's mistakes and collusions,) the exception.

Not much free trade about that! Truly, we may ask—"is Saul also among the prophets?"

PLAY FAIR.—We are sorry that our good friends of the Milwaukee *Sentinel* manifest a disposition to misrepresent the interests of Sheboygan, and were we let entirely alone, in case they did not feel disposed to give us credit for the advantages we really possess, we would not complain of the neglect. But when notices are published, calculated to mislead the public, and particularly strangers, we shall take the liberty to make all necessary corrections.—*Sheboygan Mercury.*

The *Mercury* proceeds to point out the "notices" of which it complains, and upon which it founds its very unjust accusation. They related to the trips of Ward's Steamers and were published by request and on the authority of the Agent here, without the slightest thought or wish "to misrepresent the interests of Sheboygan." So far from manifesting or entertaining any such disposition towards our Sheboygan neighbours, it always gratifies us to publish any items showing their progress and prosperity.

The *Mercury* adds the following, which we cheerfully publish for the benefit of all concerned:

The attention of the *Sentinel* is called to the season arrangements published in *this* paper of Ward's Line of steamers, composed of the *Arctic, Pacific* and *Sam Ward*, one of which is advertised to leave SHEBOYGAN every evening at 10 o'clock for New Buffalo and *intermediate* ports, this being the Northern terminus of the above line of boats, for the present season.

The steamer Telegraph is also making daily trips in connection with the above boats, between Sheboygan, Manitowoc, and Two Rivers.

Passengers bound for Sheboygan, are assured that the boat they take at New Buffalo in the morning *will land them the same day, at Sheboygan in the evening of the same day*, unless extraordinary bad weather prevents, and the same cause may prevent the arrival of the boat at Milwaukee.

GEN. CASS.—The following resolution, passed at the late Democratic of Convention of Michigan, we believe speaks the true sentiments of a large majority of the democracy of the entire North Western States. If such is not the expression of the National Convention, it will be because the people have *been managed out of their rights.*—*Madison Democrat.*

That *is* cool. The resolution referred to was a strong expression of preference for Mr. Cass, as the "democratic" nominee for the Presidency, and this, the *Democrat*, insists "speaks the true sentiments" of the party in the entire North West. So far as Wisconsin, Illinois and Iowa are concerned this is assuredly *not so*; and if their votes are cast in the Democratic National Convention for Mr. Cass it will be because the Delegates follow the bidding of the leaders and not the masses of the party.

THAT INDUSTRIOUS CONGRESS!—In the House of Representatives on the 1st instant, a bill was talked over for the relief of Quarter Master Cross of the Army; then the House twice refused to go into Committee on the Homestead Bill; then, after this severe morning's work, Mr. JOHNSON (dem.) of Arkansas moved to adjourn, but somebody called for the *Yeas and Nays* and the adjournment was lost, 80 to 57; and then, quite worn out by these protracted labors, another motion was made to adjourn, and the House, being altogether too exhausted to take the yeas and nays a second time, the motion prevailed "by a *large* majority!" The "little busy bee" is no circumstance to our active and indefatigable Congress. Why don't some humane and "progressive" member propose the Ten-hour Law and thus save Congress from being worked to death?

GERMAN EMIGRANTS.—The N. Y. Evening Post of the 3d inst., says the arrival of emigrants from Germany this season has been very large, and of a superior character as respects means—The captains of the vessels recently arrived state that all their steerage passengers have brought money in coin and bills of exchange, varying from $250 to $400 each. The arrivals of German emigrants during the last three weeks have added full $2,500,000 to the circulation.

Wisconsin is the home to which the large majority of these German Emigrants are hastening. Nearly *three thousand* have already landed at this port since navigation opened, and they all report, multitudes to be "following in their footsteps." We think it probable that our State will receive an accession of forty or fifty thousand to its population this year by emigration from abroad.

THE PRESS AND THE VETO.—The Grant County *Herald* has the following remarks upon the Veto of the Fox River Improvement Bill:

In our opinion, the veto of the Northern Improvement Bill, is destined to place Gov. Farwell before the people of this State, in the character of a faithful sentinel—an enemy to extravagance, and to wild-cat legislation. Instead of making this improvement a perpetual tax-machine, he would confine the progress of the work to the bounds set by the Constitution, and have the payments made from the proceeds of the sales of donated lands, as the work progressed.

We should be glad to know whether the *Commercial* regards the *Herald* as "respectable," or not.

PRESIDENTIAL MOVEMENTS.—The several Congressional Districts of New York are now in the midst of their elections for Delegates to the Whig National Convention. We learn from the Albany Evening *Journal* of the 5th instant, that the Counties of Saratoga, Washington, Warren, Columbia, Dutchess, Jefferson, Lewis, Herkimer, St. Lawrence and Niagara, have all chosen Scott Delegates. Richmond County (Staten Island) sends a Fillmore Delegate.

COL. BENTON PROSCRIBED!—We learn from the St. Louis *Republican*, that the "Democratic" Convention, held last week in that Congressional District, threw overboard Col. BENTON, as a Free-Soiler, and nominated Col. BODY as the "regular" Candidate. Col. BENTON'S friends have brought him out as the candidate of the *true* "democracy," and will give him a vigorous support. The Whigs have not yet made a nomination.

ANOTHER FOREIGN ARRIVAL.—Private Telegraphic despatches announce another foreign arrival; on Saturday last, with a further advance 6d. a barrel on Flour. Our New York Market report of yesterday shows an improved feeling and considerable sales.

QUICK RUN.—We learn by a private Telegraphic despatch from Buffalo that the fine brig *Helfenstein* of this port arrived at Buffalo on Saturday last, and leaves again on her trip home to-morrow.

For the Sentinel.
Secret Societies.

Messrs. Editors:

"T" in stating that the "Pius Society" is not a secret one, affirms that the Catholic Church forbids *ex-professo* any of her members joining any such Society on pain of excommunication. It is well known, that joining the Free Masons, the Illuminati and some other secret societies, has been forbidden by express bulls on such pain; but T would enlighten many who are in otherwise not strangers to the *jus canonicum*, by showing when and where a general prohibition against joining *any* secret society, has been sanctioned by the *Church* through her regular legislative organs to wit: the Holy Father and the Concilium. For the casual warfare of some American Bishops against rather harmless societies is no proof at all that the *Church* established such a rule; Bishops being as liable to mistake as any others, and being not at all entitled to claim infallibility. T therefore, should have stated the *law* of the Church rather than his peculiar sentiments. T. further says that any Catholic, on joining a Secret Society, at that moment ceases to be a Catholic—Now this we deny most positively. No Catholic ceases to be a member of his Church, but by turning openly to heresy, or by forsaking the Christian faith by his own declaration. Though he may be a sinner, and even be punished by the Church as far as to incur the excommunication and interdictum, he is not looked at by the Church as an Acatholic or Heretic, if not being excluded from the holy supper, for reason of *heresy*. And further, the Church never would be a stepmother, which might turn out a defaulting child on account of a trifle—but even in punishing its children it regards them as its own, nor does it read them out of the family in any way, but for their committing apostacy themselves. That is the true Catholic doctine laid down by Councils and Popes, and it is unbecoming for any Catholic to attempt to read out of the Church any sinner or stumbler on a question which never has been decided by the Church.

Sometimes by witnessing certain attempts to lay down *entirely new rules*, as this and others, which have been never heard of abroad, but which have been proclaimed as *sine qua nons* by the Freemans Journal and the Shepherd of the Valley, we are tempted to believe there were other laws and rules of the Catholic denomination in the United States than anywhere else.

JUSTICE.

City Matters.

BLAIR'S PANORAMA.—We were sorry to see so few persons present at the opening of the Panorama last evening, and hope that our citizens will do themselves the justice and the pleasure by attending. We assure them that they will be richly repaid, not only by a view of the best painting of the kind that has ever visited our city, but in real substantial, valuable instruction.

DR. CHAMBERS is a pleasing and accomplished lecturer, and we hope that he will be greeted by a full house. The loss will not be his if it is not the case. The room should be filled, large as it is. The Panorama moves at 8 o'clock precisely.

CRICKET—A FIELD DAY.—Our Milwaukee Cricket Club intend to make a day of it to-morrow. A match is to be played between the first and second elevens of the Club. The wickets will be pitched at 10 o'clock, and a cold collation will be served on the field. We hope to see a full turn-out of members and spectators. The Cricket ground is on the north side of Spring-st, a few rods beyond the crest of the hill.

RAIL ROAD DAMAGES.—Mr. D. FISCHBACH, the plaintiff in the suit against the Rail Road Company, who got a verdict for $140 damages, desires us to correct our statement, that he had been offered $150, so far as to say that this offer was accompanied by the condition that he should deed to the Company the 2½ acres cut off by the road. The verdict as it stands is, we believe, satisfactory to both parties.

SAD ACCIDENT.—On Sunday afternoon two Germans were paddling about the river, just above the Red Bridge, in a canoe, when by some mischance the canoe upset and they were both drowned before assistance could reach them. Their names were Johann Kannen, and Wilhelm Meyer, the former 25 and latter 27 years old. Kannen was a married man and Meyer single.

SPRING FASHIONS.—Mr. WILLIAM C. MAYBAUM'S advertisement in our columns this morning, will attract attention. His store, No. 78 East Water Street, has been completely remodelled, and is now one of the most convenient and handsomest stores on the street. The new and tasteful dress of paint in which it rejoices is the handiwork of Mr. ARTHUR J. DADD, an excellent painter.

☞ H. BOSWORTH & SONS, one of our oldest houses, are out with *their* spring manifesto. They have one of the handsomest and best arranged stores in the city; and they have filled it with a heavy stock of the innumerable articles in their line.

They are entitled to, and will receive, a large share of the trade this season.

☞ Two runaways yesterday afternoon—one spoilt a buggy and spilt out, but happily without hurting, a boy; the other threw out two boys, sons of Deacon Ogden, bruising one of them badly.

FOR THE UPPER LAKES.—The steamer *Sultana* left Buffalo for the ports on this Lake, on Thursday evening last, and Detroit on Saturday. She will be here to-day.

☞ The steamer *Arctic*, from Chicago and New Buffalo, yesterday afternoon, brought a large Eastern mail and some 75 passengers for this port.

MR. LORD'S HISTORICAL LECTURES.—It will be seen by the advertisement in our columns that Mr. LORD will deliver a Lecture in this city tomorrow evening. To show the estimation in which Mr. L. is held as a lecturer in other places, we publish the following notice of his reception in Philadelphia, where he lectured with great success, the past winter:—

At the close of the Lectures of Rev. Jno. Lord, in the University of Pennsylvania, a meeting was organized by calling the Hon. Joel Jones, to the Chair, and appointing G. H. Stuart, Esq., Secretary.

The Rev. Dr. Malin, thereupon offered the following resolutions, which were unanimously adopted:

Resolved, That the lectures of the Rev. John Lord, on which it has been our privilege to attend, are elegant in diction, replete with profound and enlightened sentiments, and sound Christian philosophy, and are worthy of frequent repetition in the great centres of literary influence throughout our land; adapted, as they are, to do a great service to historical learning, and promote also the cause of true religion and humanity.

Resolved, That the thanks of this audience are hereby tendered to Mr. Lord, for the rich literary treat his recent courses of Lectures have furnished us, accompanied with the expression of our earnest hope that he will afford us, when it may suit his convenience, an opportunity to become again his auditors.

JOEL JONES,
Ch'n.
GEO. H. STUART,
Sec'y.

SPRINGFIELD A CITY.—The electors of Springfield, Massachusetts, have accepted the new city character, by a vote of 969 to 453, and Springfield will henceforth be numbered with the cities of the land.

☞ The steamship *City of Pittsburg*, 2400 tons burthen, is to leave Philadelphia for San Francisco on the 1st of June.

A FAVORABLE NOTICE.—The N. Y. *Tribune* gives the following graphic account of a late meeting of the "fathers" of Gotham:

The Common Council managed to get through the dust to the City Hall yesterday afternoon, some of them just time for the tea and "milk." Their labors were brief, and the business was not surprisingly important. The Aldermen also graciously "allowed" that the streets may be sprinkled between 8 A. M. and 5 P. M. Such condescension evoke much gratitude. The most important business of the evening was the passage of a resolution that the Common Council should write their resolutions on pieces of paper not smaller than a quarter of a sheet of foolscap!—And then the Aldermen, almost dead with fatigue of earning their $1 each, adjourned to the ten-room, to begin the work of eating and drinking in nearly $700 worth of "milk," &c., during the May session.

A LAUNCH.—The new steamer which is being built by Messrs. WHITNEY & Co., on the East river, was launched yesterday afternoon. It was witnessed by a large number of the ladies and gentlemen of our town, and she "went in" handsomely, of course. As she touched the water, a flag was thrown to the breeze bearing the name of our enterprizing townsman, M. L. MARTIN. She is a beautiful model. *Green Bay Advocate.*

COMMERCIAL.

THE MARKETS.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, May 11, 1852.

Not much doing in produce the past week, but trade has much improved. Considerable quantities of goods have reached here from below, and country trade is setting in in a steady flow. Large numbers of teams are loading up with merchandize for the inland towns, and the emigrants who pour in by every boat from both north and south, are making their way into the farming regions. All these things make the streets lively.

There was news on Saturday evening, by private dispatch, of another steamer from Europe, with a further rise of 1s. per bbl. upon flour. The market here must begin to feel the effect of improved prices. As yet, there is little change.

FLOUR—No change—sales of 175 bbls extra flour at $4.00—No. 1 at $3 50@3 75—country brands, common, at $2 25@3 00

SEGARS—We note a rise of 10c. on refined and New Orleans, since last week.

HIDES—In demand at 8c. for dry, and 3½ for green, with an upward tendency.

We quote below the Boston figures for the Lt of Mayes given by the *Advertiser*:

The *Galway Mercenry* states that so great is the anxiety felt by the poor laboring classes in that part of Cannaught to escape from the "land that bore them," that such of them as have been fortunate enough to obtain employment on drainage works, have adopted the following novel and extraordinary mode of enabling themselves to emigrate. A number of tickets, corresponding with the number of persons present, are then placed in a hat, and on one of three the word "America" is written, all the rest being blank. South Carolina State Convention

Charleston, April 30

In the Convention, yesterday, Langdon Cheves, of the Committee of twenty one, reported the following resolution and ordinance:

Resolved by the people of South Carolina, in Convention assembled, that the frequent violations of the Constitution of the United States, by the Federal Government, and its encroachments upon the reserved rights of the sovereign States of this Union, especially in relation to slavery, amply justify this State, so far as any duty or obligation to her confederates is involved, in dissolving at once all political connection with hereon States, and that she forbears the exercise of that manifest right of self government, from considerations of expediency only.

The ordinance declares the right of this State to secede from the Federal Union, in the following words:

We, the people of the State of South Carolina, in Convention assembled, do declare and ordain, and it is hereby declared and ordained that South Carolina, in the exercise of her sovereign will, as an independent State, acceded to the Federal Union, known as the United States of America, and that in the exercise of the same sovereign will, it is her right without let, hindrance or molestation from any power whatsoever to secede from the said Federal Union, and that for the sufficiency of the causes which may impel her to such separation, she is responsible alone, under God, to the tribunal of public opinion among the nations of the earth.

The report was adopted by the Convention by yeas 135, to nays 20.

Great Excitement in Grayson Co., Va.—A Court Dispersed by a Mob

Some time ago, Mr. Bacon, a Methodist minister, was violently assaulted in the county of Grayson, Virginia.

It was alleged that he had stirred up the negroes to rebellion. The charge, all sober-minded men knew to be false, as all shareholders would be ready to admit: for insurrections are not created, and could not be started by any such instrumentality.

Of this opinion was Cornut, a shareholder, but an emancipationist, and he said so. The Lynchers, in secret inquisition, hearing of his speech, resolved to punish him. They gathered round him in force, when Cornut quietly but very firmly declared to them his opinion. He was then most brutally flogged and tarred and feathered.

Cornut, standing his ground, instituted legal proceedings against the Lynchers. They called together the inquisition. That body notified Cornut's lawyers and the court, that if the former prosecuted, or the latter tried the case, both should have a coat of tar and feathers. This notification was given in writing, and in official form.

The court did not heed the threats of the Lynchers, and met at the appointed time. The lawyers were all present, too. And it was known that Cornut's case would be tried when it was reached on the docket. The Lynchers thereupon appeared, fully armed; marched round the court house: fired their guns by platoons; and then dispersed the court amid the greatest confusion.

Sheboygan.

Sheboygan now contains a population of nearly or quite three thousand, is a beautiful location, as all persons who have visited it will bear witness, and the facilities for getting to and from it by land or water, are surpassed by *no other place in the State*. The citizens of the village and county of Sheboygan, viewing the matter in a liberal sense, very properly resolved to no longer wait for aid from government, but submit to tax of Thirty Thousand dollars to improve the harbor, and we have before stated that a law was passed in accordance with this resolution, which we are happy to say, has resulted in letting the contract to complete the harbor. A plank road was a matter of talk for a long time, and to build one to Fond du Lac, would require more means than the county could raise, but it was commenced and the first year five miles were completed, and Mr. A. L. McCrea, believing this would prove good stock, took hold of the matter, and the middle of August next will connect Sheboygan and Fond du Lac with as good a plank road as there is in the State.

We have ever avoided making broad and unqualified assertions in regard to the future destiny of Sheboygan, but have watched the foundation, which is now complete and well cemented together, the material necessary for the structure are secured, and the present season will bring about a change in the appearance of a place that is bound to be *second only* to any place in Wisconsin, in size and importance. We are aware that there are some in Wisconsin that would regard this as a matter of fancy, but let such as doubt, make a note of this prediction, and a short time will settle the matter beyond a question. Fond du Lac, with her Fox River Improvement, and Union Valley Railroad, will strive hard, and cannot fail being a large inland town, and if it grows rapidly, so much the better for Sheboygan, as this is, and ever will be the natural outlet for that section of the State.—*Mercury.*

☞ The Weather, though unpleasant to an unusually late period of spring, is now beautiful. Farmers are elated with the future prospect of their farms. Potatoes are in demand.—*Grant Co. Herald.*

☞ As we have all along said, there appears to be quite a demand for common laborers, to take the place of those who have gone to California. The demand will be greater as harvest approaches; and we fear that farmers will have to pay a dear price for all their hired help.—*ib.*

An Act

To amend Chapter 102, of the Session laws of 1851

The People of the State of Wisconsin, represented in Senate and Assembly, do enact as follows:

Section 1. The board of supervisors of the several towns, and the board of aldermen of any city, and the board of trustees of any incorporated village, within this state, shall have power to license the sale of spirituous liquors, as provided in the first section of the act to which this is amendatory, and the sum to be paid therefor, by the persons applying for such license shall be not less than ten, and not more than one hundred dollars, at the discretion of the board of supervisors, the board of aldermen, or the board of trustees, as the case may be.

Sec. 2. The board of supervisors, board of aldermen, or trustees, shall if they deem it expedient grant license to such persons in their respective towns, cities, or villages, as are desirous to sell spirituous liquors, in quantities not less than one gallon, and the sum to be paid there for shall not be less than ten nor more than forty dollars, at the discretion of the said supervisors, aldermen, or trustees.

Sec. 3. The penalty to be recovered under the fifth section of the act to which this is amendatory, shall be not less than ten, nor more than forty dollars.

Sec. 4. The board of supervisors, board of aldermen or trustees, shall, if they deem expedient grant license in their respective towns, cities or villages, to sell intoxicating or spirituous liquors in any quantity less than one gallon, to such persons as keep houses of public entertainment, as provided in the fifteenth section of the act to which this is amendatory, and the sum to be paid therefor, shall not be less than ten nor more than thirty dollars, at the discretion of the said supervisors, aldermen or trustees.

Sec. 5. All laws contravening the provisions of this act are hereby repealed.

Approved April 14, 1852

Court House and Jail Burned.—On Thursday morning last the Court House and Jail at Manitowoc Rapids were burned to the ground. They were set on fire by an insane man named Benjamin E. Lynde. The Court House was a small frame building and the Jail was built of hewn logs.—They were built for the temporary accommodation of the County, and the entire loss will probably come within one thousand dollars. Lynde has occasionally been confined in the Jail, and has frequently threatened to burn these and other buildings. He is now in confinement at the county Poor House, and if set at liberty he will undoubtedly continue to execute his threats. The board of county supervisors will meet on Saturday, and it is hoped that some provisions will be made for him, that will insure the safety of property in future.—*Manitowoc Herald.*

Navigation.—The *Peytona* and *Jenny Lind* are now making regular trips on Lake Winnebago, from Fond du Lac to Neenah and Menasha.

The *Delin*, which was burned last season, is nearly rebuilt, and will be put in the Wolf river trade.

—The *John Mitchell* is running on the upper Fox, as far up as Montello.

The *Menasha* is waiting for a new set of boilers. She will be out in a few weeks.

The *Oshkosh* has been taken to the Mississippi. She has been purchased by a company on the Tennessee river, where she is to be engaged in towing boats in the iron trade.

The *Pioneer* will commence her trips, we understand, to-morrow, between this place and Bridgeport or Rapide Croche.—*Green Bay Advocate*, 6th inst.

The Railroad Grants.—The following is a more accurate report of the proceedings in Senate relative to the railroad grants in this State, than that given by telegraph:

The bill granting lands to Wisconsin to aid in the construction of a railroad from Fond du Lac to Jenesville, and from Milwaukee to the Mississippi River, having been taken up.

Mr. Shields moved an amendment granting lands to Illinois for extending one of those roads from the southern boundary of Wisconsin to Chicago.

Mr. Walker hoped the amendment, which would embarrass the bill, would not be insisted upon.

Mr. Douglass said that there was no land in that part of Illinois through which the road mentioned in the emendment would run. He did not, therefore, desire Illinois to have the reputation of getting land, when in fact, she did not get any. He therefore hoped his colleague would withdraw it.

Mr. Shields withdrew the amendment.

Mr. Badger moved that the bill be laid on the table. Lost, ayes 11.

The bill after some further remarks was ordered to be engrossed.

California at our Doors!—The following article from the Mineral Point *Tribune* of the 6th instant may have the good effect of checking the tide of emigration which has been setting so strongly from the Western portion of our State towards California

Gold in Mineral Point!—As some boys were at play in a ravine in this village on Sunday last, a lump of gold, valued at some five dollars, was discovered by one of them. Considerable excitement prevailed, and nearly half the town was engaged in gold hunting before night. Several pieces valued at from $2 to $5 were found near by. On Monday the search was continued, and one gentleman happening to get on the right range, discovered a lead containing gold, silver, and diamonds, and before noon had extracted near *two hundred dollars worth* of the precious metals.—Present indications induce us to believe that still greater discoveries will yet be made in this vicinity. At this time, nearly the whole town is engged in searching, and when further discoveries are made our readers shall be duly notified. The greatest wonder at present is that the discoveries were not sooner made.

P. S.—Some of the gold has been worked into rings, and is pronounced pure.

Fifty Vessels Wrecked.—Newfoundland papers bring accounts of the wreck of *between fifty and sixty vessels in the ice* in the gale of April 20th. The loss of life is said to be considerable, although full particulars were not known. A list of eighteen vessels lost with full cargoes of skins, is given, one of which had five of her crew drowned and another two.

Canandaigua.—The Whigs of Canandaigua had the largest caucus on Saturday ever held in that town. Delegates were appointed to the District Convention in favor of Gen. Scott, by a vote of eight to one. We are assured that the Whigs of Ontario are almost unanimously in favor of Scott.—*Roch.* (N. Y.) *Dem.*

Graefenberg Medicines

HAVE YOU USED THEM?

As popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public, they have no superiors. They are emphatically what they are represented to be, *genuine*, and free from *Humbug*, intended as much to *cure* as to *sell*. When once tried, they are universally relied upon, and no *Family* should be without these truly valuable aids to *Health*. In many instances the *regular faculty* recommend and use them, such is their force over the prejudices of those so much opposed to the circulation of Peruvian Medicines. No *Family Physician*, in ordinary cases, is needed by those who own the *Graefenberg Manual of Health*, and strictly abide by the directions in the use of the medicines.

A word to the *wise* is sufficient, without the publication of certificates, which we have of the most flattering description always open for the inspection of the incredulous.

We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State throughout the Union.

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, *no big bottle humbug*, or pleasant drink, but as *it should be*, a *Medicine* of the greatest power in pronouncing an entire change in the system, by eradicating those impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAEFENBERG DYSENTERY SYRUP.—Public approbation has stamped upon it the character of *perfect*. It has checked the ravages of *Cholera* in its last stages, and for bowel complaints it has no equals.

THE GRAEFENBERG VEGETABLE PILLS, are particularly valuable for the prevention and cure of *Fevers* in general. They act gently, naturally and surely, and in connection with our *Health Bitters*, are a certain and speedy cure for the Fever and Ague. The *Bitters* have a wonderful effect in invigorating a debilitated system.

THE GRAEFENBERG GREEN MT. OINTMENT.—In reducing inflamation, healing burns, bruises, and all injuries to the body, we can confidently recommend this salve to all as being most efficacious. In the *Mineral Region* of our State its merits are universally appreciated.

THE GRAEFENBERG EYE LOTION—An unpretending article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it.

THE GRAEFENBERG UTERINE CATHOLICON.—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most scientific physicians. For Prolapsus Uteri, and all complaints incident to *Females*, it will be found a safe and speedy remedy. Let no *effected* case be deterred by delicacy or prejudice from giving it a fair trial. Inquire of the agent for the pamphlet in relation to it.

THE GRAEFENBERG PILE OINTMENT, CHILD'S PANACEA, &c. are all invaluable remedies, directions for which and all the medicines are attached to each.

MISCELLANEOUS.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINES" throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some six teen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It can be safely said that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.

JAMES G. WILSON,
Philadelphia."

May 19, 1849.

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do as much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.

JOSEPH P. WOODBURY,
August 20, 1851.-dly East Boston, Mass.

WATER-CURE ESTABLISHMENT,
BRATTLEBORO', VERMONT.

THE Proprietor, DR. R. WISSELHOEFT, begs leave to inform the public, that he has recovered from his severe sickness, and is able again to attend to his professional duties. Former and new patients, therefore, may depend upon his giving due attention to their cases. They will find comfortable and pleasant accommodations both for themselves and friends, but will please to remember that the establishment is founded for the *cure of diseases by means of water*, and not for a hotel or a fashionable watering place. Yet, to the lovers of nature and a quiet summer residence, the place has many attractions besides its Water-cure, for Nature has indeed been lavish of her gifts on the town, and the walks and drives in the vicinity.

G. GRÆSSLE'S
PRESSED, FIRE-PROOF TILING.
CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Græssle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I thereby take occasion to recommend said roof covering to every house-builder, inviting them to satisfy themselves by ocular inspection of the excellent quality of the same. ENNO MEYER.

Druggist, 374 W. Water-st., 2nd ward.
Milwaukee, Feb. 3, 1852.

The above I found true in every respect, as to the roof of my house, covered with the same tile, invented by Mr. Græssle. AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Græssle, find them of perfect impervious character, and from their peculiar and sagacious construction recommend this kind of Tile, not only as a fire proof and perfectly water-proof covering, but above all for its durability. The ridges and channels not only exclude the entering of snow or rain-water, but, by their firm and precise joining of one into the other, they give to the shingle Tile as well as to the covering a absolutely immovable position and an intimate connection. Besides this, Mr. Græssle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them thus durable; and joining to the above another virtue, viz. that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending the building community to the above roofing. The as an excellent and valuable material.

OTTO SCHWARTZ, } Architects.
VICTOR SCHULTE, } & Builders.
Milwaukee, Feb. 5, 1852.

To G. Græssle:—I have examined the Roofing Tile manufactured by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.
